

Hazards in the Workplace: Discussion Guide

This resource accompanies the Hazards in the Workplace slideshow.

What are some of the hazards commonly found in your industry?

How have these hazards changed over the years? How could they continue to change?

What contributing factors also impact the common hazards of your work?

How does this change the hazards' levels of risk?

Apply the three areas of control to a common hazard of your work.

What protective measures go in place at the hazard, along the path and at the worker?

What happens when a hazard is identified at your workplace?

Who responds? What measures, tools are used? What is done?
